## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Mattingly on 09/01/04.

The application has been amended as follows: In line 5 of claim 7, the word -- cylindrical-- has been inserted after the word "a".

### ***Allowable Subject Matter***

2. Claims 1-20 are allowed.

3. The following is an examiner's statement of reasons for allowance: Claims 1-6 and 13-20 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 1 wherein a cylindrical dielectric block (1) is disposed with the microstrip line (3) in a manner that a base surface of the cylindrical dielectric block (1) is substantially parallel to a surface of the substrate (2) on which the microstrip line (3) is formed and the cylindrical dielectric block (1) is to resonate in at least one of the higher order modes in combination with the rest of the limitations of the base claims and any intervening claims. Claims 7-12 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 4 wherein the oscillator includes a variable reactance device (11) between the active device (6) and the resonator (1, 3), and a

control of an oscillation frequency is possible by a characteristic control (12) of the variable reactance device in combination with the rest of the limitations of the base claims and any intervening claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
